In order to be valid, such notice must not expire before the end of the Initial Period set out on the Form.

You will indemnify Us in full for all costs and expenses, liabilities or expenses incurred or due to such third party and arising out of the exercise by Us of our rights pursuant to such licence.
- 5.8 You shall not be entitled to sell, lease, hire, loan, give others the use of, pledge or in any way charge by way of security for any indebtedness any of the Equipment which remains Our property, and if You do so, all monies owing by You to Us (whether under this Agreement or otherwise and without limiting any of Our rights or remedies) shall become immediately due and payable.

- 5.12 Any claim by You under the warranty in clause 5.10 must be notified to Us within 14 days from the date of completion of the installation of the Equipment or, where the defect or failure was not apparent on reasonable inspection, within 21 days of the failure becoming apparent. If the Equipment is not refused and You do not notify Us within such 14 day period, You shall not be entitled to reject the Equipment and You shall be bound to pay the price as if the Equipment had been supplied and installed in accordance with this Agreement. - 9.6 You shall sign and maintain for the duration of the Agreement a variable direct debit mandate which will enable Us to withdraw the amount of the Charges from Your nominated bank account. If You allow a direct debit mandate to lapse, We reserve the right to charge an additional fee to cover any administrative costs which we incur in collecting payment by alternative means.
- 9.7 You understand and agree that any adjustment to any System used by You will require an adjustment in the Charges for the Maintenance Services and We reserve the right to implement any such adjustment at any time. Notwithstanding the foregoing, We reserve the right to adjust, without notification, the Charges for the Maintenance Services at the end of each 12 month period from the date of the Agreement.

- 9.8 If at any time during the Agreement We have reasonable cause to doubt Your credit worthiness, We may require You to make payment in advance of the whole or part of the Charges for Equipment and/or the Telecom Services, or at Our discretion to provide reliable security to the value of such sum or sums as are owed or will become payable to us under the Agreement.
- 9.9 We shall prepare and send bills for usage Charges in such form and manner as shall be agreed between You and Us (or in the absence of agreement, as determined by Us). Usage Charges payable by You shall be calculated with reference to data recorded, logged or obtained by Us whether or not the Telecom Services have been used by or with Your authority and irrespective of any fraud and not by reference to any data logged or recorded by You.
- 9.10 All sums referred to in this Agreement are exclusive of Value Added Tax and any other taxes of a similar nature which may from time to time be introduced, and which shall be charged in addition.
- 9.11 If this Agreement is terminated part way through a month, no refund shall be due to You and nor shall We pro rata any Charges payable by You in respect of that month for the Telecom Services, Maintenance Services and/or the Equipment.
- 9.12 If You fail to make payment of any amount on the due date then, without limiting any other right or remedy available to Us, We may:
- 9.12.1 terminate the Agreement or suspend any further deliveries of Equipment and/or performance of the Maintenance Services and/or the Telecom Services to You and We shall have no liability to You in respect of the suspension, nor in respect of any loss or damage caused to You as a result of it; and/or
 - 9.12.2 appropriate any payment made by You to such of the Equipment (or any equipment supplied under any other agreement between Us and You), Maintenance Services and/or Telecom Services or any additional sums payable as We may think fit (notwithstanding any purported appropriation by You); and/or
 - 9.12.3 charge You for all the legal or debt collection costs incurred by Us (both in and out of Court) which shall be a minimum of 15% of the unpaid amount on a full indemnity basis.

10 TERMINATION

- 10.1 We can suspend the Telecom Services and/or the Maintenance Services or end the Agreement in whole or in part at any time without giving advance notice to You if:
- 10.1.1 a liquidator (other than for the purpose of amalgamation or reconstruction), trustee in bankruptcy, administrator, receiver or receiver and manager is appointed in respect of the whole or part of Your assets and/or undertaking or You enter into an arrangement or composition with Your creditors, or if You become unable to pay Your debts within the meaning of S123 of the Insolvency Act 1986 or other circumstances arise which entitle a court or creditor to appoint a receiver or administrator or to make a winding up order;
 - 10.1.2 You are materially in breach of a term of the Agreement and upon being given notice of that breach in writing fail to remedy that breach, if capable of remedy, within 14 days; or
 - 10.1.3 an event of Force Majeure (as referred to in clause 8.6) prevents a party from performing its obligations under this Agreement for a continuous period of 30 days or more.
- 10.2 Notwithstanding anything to the contrary in the Agreement, We (without prejudice to Our rights) may terminate this Agreement immediately if any authorisation or licence under which You have the right to run Your telecommunication system and connect it to Our system is revoked, amended or otherwise ceases to be valid.
- 10.3 If the Agreement is terminated for any reason, You shall return any Equipment which You have not paid for in full and, except as otherwise provided in this Agreement, shall pay any outstanding charges or costs to Us within 14 days of the date of termination of this Agreement.
- 10.4 Where We terminate this Agreement under clause 10.1.2, without prejudice to any other claims We may have, We may claim our loss of profit arising from such termination calculated by the formula:

$$\text{Termination Fee} = A \times B$$

where A equals the remainder of the Initial Term detailed on the Form plus any un-served notice period (where appropriate) and B equals the Company's gross margin earned on the Average Monthly Charges (the "**Liquidated Damages**").

The Average Monthly Charges shall be the average of the Charges billed by the Company during the 6 months immediately prior to such termination of the Agreement, plus an administration fee of £100. Where such termination is within 6 months of the commencement of the Agreement, the Average Monthly Charges shall be an amount equal to Our standard Charges, for those Services listed on the Form, together with an amount equal to Your estimated call spend. The Customer agrees that the Liquidated Damages shall be recoverable by the Company as a debt due from the Customer and agrees

that the Liquidated Damages are a genuine pre-estimate of the loss of profit likely to be suffered by the Company.

- 10.5 If We suspend the provision of the Telecom Services and/or the Maintenance Services due to the reasons set out in Clause 10.1.1, title of the telephone numbers will revert to Us and cannot be transferred away from Us without our prior written consent and may be subject to a transfer fee. The Telecom Services and/or Maintenance Services may, at Our sole discretion, be reinstated if We receive:
- 10.5.1 an undertaking for payment signed by a liquidator, administrator, trustee in bankruptcy (or such other persons as We consider suitable); or
 - 10.5.2 a new signed Agreement.

11 IP TELEPHONY SERVICE

The provisions of this clause 11 apply where the IP Telephony Service is provided by Us.

- 11.1 In selecting the IP Telephony Service You acknowledge that the IP Telephony Service may not offer all of the features of a traditional phone line and may sometimes be unavailable as a result of things outside Our control, for example, power disruptions and failures of Your Internet Service Provider or broadband connection. You must maintain Your broadband connection or other connections e.g. leased lines, SIP trunks etc. in order to use the IP Telephony Service.
- 11.2 **IMPORTANT** - If the IP Telephony Service is fully operational, 999/112 public emergency call services can be accessed. However, there may be some limitations as set out in the following clauses.
- 11.2.1 If there is a power failure, failure of the broadband connection or other IP Telephony Service outage for any reason, such failure or outage may prevent access to 999/112 dialling.
 - 11.2.2 It may or may not be possible for emergency operators and authorities to identify a location and phone number when 999/112 is dialled. The users of the IP Telephony Service will need to state their location and phone number promptly and clearly, as emergency operators and authorities may not have this information.
 - 11.2.3 Emergency operators and authorities may or may not be able to identify the user's phone number in order to call back if the call is unable to be completed, is dropped or disconnected, or if the user is unable to speak to tell them his/her phone number and/or if the IP Telephony Service is not operational for any reason. Emergency operators and authorities may also not be able to hold the line open in the event the user hangs up.
 - 11.2.4 You are responsible for informing potential users of the IP Telephony Service of the above limitations and You should ensure that there is always an alternative means of accessing 999/112 emergency services.
 - 11.2.5 If You suspend the IP Telephony Service in accordance with this Agreement, You may not be able to dial 999/112.
- 11.3 Number portability may be available with the IP Telephony Service. In accordance with clause 8.3, We shall not be held responsible for any loss of business during the porting process. If You move Your telecom service to or from Us or to or from another provider You may not be able to keep your telephone number. Where, for the purposes of the IP Telephony Service, any telephone number is ported to Us or where We assign any telephone number to You, We shall own such number(s).
- 11.4 If, at any time, the IP Telephony Service is affected or unavailable other than due to Our fault, You will continue to be billed for the IP Telephony Service.

12 BROADBAND SERVICES

- 12.5 You must ensure that passwords and user names used in connection with the Broadband Service are kept confidential and are only used by You or people authorised by You. You must inform Us immediately if You know or suspect that a user name or password has been disclosed to an unauthorised person or is being used in an unauthorised way. You must not change or attempt to change a user name without Our written consent.
- 12.6 We reserve the right to:
- 12.6.1 suspend user names and password access to the Broadband Service if at any time We think that there has been or is likely to be a breach of security;
 - 12.6.2 ask You to change any or all of the passwords You use in relation to the Broadband Service.

- 12.11 We may require You to select a replacement Domain Name or URL and may either refuse to provide or may suspend the Broadband Service if We reasonably believe that the Domain Name or URL is, or is likely to be, offensive or abusive or otherwise in breach of clause 3.3.
- 12.12 Where We provide software to You to enable You to use the Broadband Service ("the Software"), You will have a non-exclusive, non-transferable licence to use the Software solely for the term and purposes of the Agreement. You may need to sign agreements reasonably required by the owner of the copyright in the Software to protect the owner's interest in that Software for You to be able to use that Software.

APPENDIX

FAIR USAGE POLICY

Introduction

Our Fair Usage Policy is designed to ensure You and all Our customers experience the best on demand, quick and reliable internet service as possible. This policy, including its usage restrictions, is in addition to the terms set out in this Agreement.

Due to the shared nature of broadband connectivity, the actions of Our customers affect the connectivity and performance of others utilising the Broadband Service. While We make significant efforts to ensure that all Our customers receive acceptable bandwidth availability, there is the possibility that neighbouring customers may capitalise on the available bandwidth. To limit this possibility, this Fair Usage Policy has been introduced.

The purpose of a Fair Usage Policy

It is important to understand that without any Fair Usage Policy it is not unusual for ISP's to have 5% of their customer base utilising in excess of 50% of the available capacity. This has an ongoing detrimental effect on the remaining 95% of the customers who are using the broadband connection within acceptable limits.

Employing this Fair Usage Policy ensures that Your experience is at its best at all times and allows Us to remain competitive with our prices. As a provider that distinguishes itself on quality connectivity for use with convergent applications such as IP Telephony Services, We are not prepared to compromise the Broadband Service for a relatively small proportion of the client base and as a result of this policy the majority of Our customers will benefit from faster speeds, less contention and an improved service level.

It is almost commercially impossible to offer a truly "unlimited" Broadband Service due to the way raw wholesale services are sold by organisations such as BT Wholesale.

What are the Fair Usage Limits?

We have introduced the following fair usage limits below. These limits are for each calendar month and are not from the time of activation of the Telecom Services.

Type of Connection	Fair Usage Limit
Home, SOHO and Business Connections; Including; 500 Pro/Plus - 512kbps, 1000 Pro/Plus - 1MB, 2000 Pro/Plus - 2MB, 8000 Pro/Plus - up to 8MB 16000 Pro/Plus - up to 16 MB ADSL2+ Green2+SOHO 40GB /Business 40GB Green Fibre / Enhanced UP Green SDSL/Enhanced UP /SDSL(M)	40GB per month
Green Fibre 100 Green Fibre2 100	100GB per month
Green Fibre 200 Green Fibre2 200	200GB per month
Green Together Green Residential Broadband	10GB per month
Green2+SOHO /Business / Business Unlimited Green Fibre1-4 Unlimited Green Fibre 1-5 FTTP - Unlimited	Unlimited Packages are subject to a 200GB (for Market 1 and 2 connections) and 500GB (for Market 3 connections) fair usage. If you exceed this limit or, in Our opinion, your activities are excessive and other customers may be detrimentally affected, We may limit, suspend or terminate your Broadband Services (see below).

How much usage actually is this?

To provide You with some information on how much data this actually represents some details have been included below.

Data Use	10GB	40GB	100GB	200GB
Standard text/HTML emails	7500 email	30,000 emails	75000 email	150000 email
Transferring Digital Photos	2500 photos	10,000 photos	25000 photos	50000 photos
Standard Surfing (hours across 1 PC connected to the broadband link)	1250 hours	5,000 hours	12500 hours	25000 hours
Download mp3 music (around 6 MB per song)	1700 songs	6800 songs	17000 songs	34000 songs
Download movies (2 GB per movie)	5 Movies	20 Movies	50 Movies	100 Movies
Watching BBC iPlayer/YouTube (1.5 GB per hour HD)	6 Hours	26 Hours	60 Hours	120 Hours

What will happen if you exceed the Fair Usage Policy?

Usage quota levels are dynamically calculated for each user. We will continue to review network usage levels and inform You if we feel Your usage hinders the operation of a high quality service for Our other users and discuss potential ways this could be reduced.

Where a data service is specified as unmetered or unlimited, reasonable usage is considered to be within 500GB per month for Market 3 products and 200 GB for Market 1 & 2 products. Where this usage is exceeded, We reserve

the right to apply policies in traffic management to limit or restrict the usage above this level or to terminate Your access to the Broadband Service if the limits continue to be exceeded after notification has been given to You.

You must use the Broadband Service in accordance with any download or capacity limits stated in the specific plan that you subscribe to for the use of that Broadband Service. We may, without notice, limit, suspend or terminate the Broadband Service if You unreasonably exceed such limits or excessively use the capacity or resources of Our network in a manner which may hinder or prevent us from providing the Broadband Service to other customers (including, but not limited to, excessive bandwidth, disk space utilisation or high CPU loads) are adversely affecting or which may pose a threat to the integrity of Our Network or systems. We also reserve the right to transfer Your Broadband Service to another service provider and/or make excess usage charges for any exceptionally unusual activity (charged at £1.50 per GB over the Fair Usage Limit).

Our Fair Usage Policy is applicable to all customers however this policy will only actually affect You if You make inappropriate use of the Broadband Service.

Broadband Speeds

We will always offer the best speed possible on the line based on the selected product. However, download speeds may vary and the actual download speed will fall within a range. Any estimated information is based on the speeds achieved by lines of a similar type with a similar broadband service. The actual speed will generally be within 1-2Mbps higher or lower than your estimated speed.

The actual speed is dependent on several factors. For example:

- the chosen product option;
- the number and speed of devices using the connection at the same time;
- whether a wireless or wired connection is used;
- the speed of the websites visited;
- the time of day (speeds can be lower at peak times (evenings and weekends)).

Estimates based on postcode (rather than phone number) are less accurate and should be treated with caution. Where we are able to provide a date for future fibre optic broadband availability, it is indicative only and subject to change.

Broadband Traffic Management Policy (QoS – Quality of Service)

We undertake traffic management to ensure that our customers receive optimum performance at all times. The policy applied is as follows.

Traffic management

Our broadband products are subject to traffic management to ensure you receive optimum performance at all times.

Like other providers, we deliver the Broadband Service over a shared network. To provide a sustainable quality Broadband Service to all our customers we have to manage the network.

The principles of our network management policies are:

- To make sure that real-time-critical applications like Voice over Internet Protocol (**VoIP**) are always prioritised;
- To protect interactive applications like web-browsing and Virtual Private Network (**VPN**) from non-time sensitive download traffic;
- To balance the network under demand to cope with exceptional peaks and troughs from day to day and month to month;
- Provides a 'quality of service' effect, meaning multiple applications running on the same line interact with each other effectively, and use of high demand protocols like Peer-to-Peer (**P2P**) doesn't swamp time-sensitive traffic such as a VoIP call.

Traffic types are identified in real-time based on a combination of port, source IP address and DPI signature detection. This allows us at any given time to see exactly what traffic is on the network and who is doing what. At times we may prioritise time sensitive traffic such as VoIP by reducing the throughput of the standard traffic.

QoS Traffic Classifications:

Traffic is prioritised according to time sensitivity. The following table outlines the standard prioritisation classes:

Top	High	Middle	Standard
VOIP	HTTP	HTTP Download	P2P
VPN		iPlayer & You Tube	Binary usenet
		FTP	
		Email	
		Generic streaming	

Broadband Stabilisation Period

During the first ten days of the new service, the speed may go up and down as the broadband equipment tests the reliability of the line to achieve the most stable speed. The broadband router should be left on during this time.

During the first 24 to 48 hours as the service adapts to the characteristics of your line you may experience some fluctuation in performance along with occasional (brief) connection drops. This is normal and the service will soon stabilise. If the problem persists after this time, please contact us.

SPAM

Also known as junk mail or Unsolicited Commercial Email (**UCE**), the term "spam" refers to submitting a commercial email or SMS messages to a large number of recipients who have not requested or opted to receive it and have no reasonable expectation to receiving email or SMS from the sender.

Email or SMS sent by a company or an organisation with whom the recipient has established a relationship or which was requested or accepted (opt-in requirement) by the recipient is not considered spam. Spamming is not only harmful because of its negative impact on consumer attitudes toward Us, but also because it can overload Our network and disrupt service to other customer/subscribers.

As a user of Our service platforms, you must comply with any regulation in force that covers direct marketing regulations if you are sending communications to large multiple lists of users.

In the absence of positive, verifiable proof to the contrary, We will consider complaints by recipients of emails or SMS messages to be conclusive that the recipient did not subscribe or otherwise request the email(s) or SMS about which a complaint was generated.
